

WORKSHOP 14 SET 2015

CREATIVITY, NOVELTIES AND INNOVATION

PHYSICS DEPARTMENT, SAPIENZA UNIVERSITY OF ROME
MEETING ROOM AULA CONVERSI (1 FLOOR)

The first Kreyon Workshop addresses the dynamics of novelties – a fundamental factor in the evolution of human societies, biological systems and technology – with the aim to unfold and quantify the underlying mechanisms through which creativity emerges and innovations diffuse, compete and stabilize.

ORGANIZERS

VITTORIO LORETO, Sapienza Univ. di Roma and ISI Foundation, Turin, Italy

PIETRO GRAVINO, Sapienza Univ. di Roma, Italy

VITO D.P. SERVEDIO, CNR Institute for Complex Systems, Rome, Italy

FRANCESCA TRIA, ISI Foundation, Turin

ANTONIETTA GIAMPAGLIA (scientific secretary), CNR Institute for Complex Systems, Rome, Italy

FERNANDA LUPINACCI (scientific secretary), Sapienza Univ. di Roma, Italy

INVITED SPEAKERS

ILAN CHABAY (IASS, Potsdam, Germany), MIRKO DEGLI ESPOSTI (Univ. Bologna, Italy),

THOMAS FINK (LIMS, London, UK), FRANCOIS PACHET (SONY-CSL, Paris, France),

ANDREAS ROEPSTORFF (Aarhus Univ., Denmark), VITO D.P. SERVEDIO (CNR-ISC, Rome, Italy),

JACOB SHERSON (Aarhus Univ., Denmark), LUC STEELS (Univ. Pompeu Fabra, ICREA, Barcelona, Spain),

STEFAN THURNER (Medical University, Wien, Austria), FRANCESCA TRIA (ISI Foundation, Turin, Italy)

Supported by the John Templeton Foundation and hosted by Sapienza University of Rome
with the collaboration of the ISI Foundation in Turin and the Institute for Complex Systems (ISCCNR) in Rome.
